

Identifier	Type	Description
RegA	Signal	Traditional RegA regulation signal
RegD	Signal	Fast-responding RegD regulation signal
D4	Derate	Power set point is reduced by 4 % of P_{base}
D6	Derate	Power set point is reduced by 6 % of P_{base}
IC1	Initial condition	Initial condition 1
IC2	Initial condition	Initial condition 2
IC3	Initial condition	Initial condition 3
TS	Period	PJM test signals
H1	Period	PJM historical hour 1
H2	Period	PJM historical hour 2
H3	Period	PJM historical hour 3
