Pitch Saturation in Low Wind Speeds

- **Blade Pitch Angle**: [°]
- **Generator Power**: [MW]
- **Wind Speed**: [m/s]

**Pitch saturation** vs **No Pitch saturation**

- **Time [s]**
- **Wind Speed [m/s]**
- **Generator Power [MW]**

---

The diagram illustrates the performance of a wind turbine under low wind speeds, comparing the effects of pitch saturation and no pitch saturation on blade angle, generator power, and wind speed over time.
