Wind Energy Science

Dear Prof. Aubrun and Prof. Mann,

First of all, on behalf of the co-authors, I would like to thank the editors for their positive and constructive feedback. We believe that the comments have helped us improve the quality of the paper. In our attempt to account for the comments, we have removed the redundant figures from the manuscript.

We hope that, with this amendment, the manuscript is ready for publication in the journal.

Yours sincerely,
Sachin T. Navalkar
