

## ***Interactive comment on “Application of a Monte Carlo Procedure for Probabilistic Fatigue Design of Floating Offshore Wind Turbines” by Kolja Müller and Po Wen Cheng***

### **Anonymous Referee #1**

Received and published: 27 November 2017

Dear authors, I would like to thank you for the interesting work on a potential new, more flexible, methodology, to perform the fatigue life assessment and verification of FOWT. I think that this material is original enough to be published, but I made a number of major and minor comments in order to enhance its readability and potential to be adopted by the larger researcher community.
