

Interactive comment on “Experimental Validation of a Ducted Wind Turbine Design Strategy” by Benjamin Kanya and Kenneth D. Visser

J.Ån. Sørensen (Editor)

jnso@dtu.dk

Received and published: 8 February 2018

Both reviews are quite positive and suggest some minor revisions of the paper. I recommend that the authors upload a modified version of the paper for a final check of the reviewers.

Interactive comment on Wind Energ. Sci. Discuss., <https://doi.org/10.5194/wes-2017-54>, 2017.
