

***Interactive comment on “From standard wind measurements to spectral characterization: turbulence length scale and distribution” by Mark Kelly***

**M. Kelly**

mkel@dtu.dk

Received and published: 19 March 2018

The online ‘Discussion’ paper included an old, incomplete version of the introduction. The complete introduction is attached here (including missing line from beginning of section 2), as a supplement.

The file will have a name like "wes-2018-14-supplement.pdf".

I apologize for the inconvenience.

Please also note the supplement to this comment:
