

Interactive comment on “Assessing Variability of Wind Speed: Comparison and Validation of 27 Methodologies” by Joseph C. Y. Lee et al.

Anonymous Referee #2

Received and published: 28 August 2018

Excellent work and paper. My minor comment is with respect to the use of reanalysis data which may have a lower interannual variability than actual site data. A short comment by the authors in the paper could address this quite easily.

Interactive comment on Wind Energ. Sci. Discuss., <https://doi.org/10.5194/wes-2018-49>, 2018.
