

Dear All,

Thank you very much for your helpful comments to our manuscript, “Ground-generation airborne wind energy design space exploration”, wes-2020-123. I am very sorry that I could not resubmit the revision sooner. My full-time work and family, together with a relocation to Japan, required my attention and time.

The manuscript underwent major revision. Several figures and sections have been replaced and new ones have been added.

Sincerely,
Markus Sommerfeld
