Author response

Dear editor,

Thank you very much for your very detailed and helpful comments to our manuscript, “Scaling effects of fixed-wing ground-generation airborne wind energy systems”, wes-2020-123. Major revisions have been implemented into the manuscript and all the comments to our previous submission have been addressed and highlighted in the marked-up version. I hope that the paper will meet your standards and the review process can continue.

Sincerely, Markus Sommerfeld
