Interactive comment on "Offshore Wind Energy Resource Assessment from Satellite Data Observations and WRF in Porto Santo Island" *by* Fabiola S. Pereira and Carlos S. Silva

Antonio Souto-Iglesias

antonio.souto@upm.es

Received and published: 29 March 2020

The paper is well organized and written.

It documents good prospects for installing an offshore wind device in Porto Santo island.

I would say some citations would make sense to related studies for other islands, such as this one from Svalbard, discussing their difficulties and limitations:
