**Dear Authors,**

**Thank you for publishing the key figures to the figshare. However, please, simply provide thee data of all figures in the figshare.**

**Sincerely,  
Johan Meyers**

*Dear Editor,*

*All data relevant to the modeling have been made available on figshare. The information contained in the remaining figures is for conceptual purposes to support the scientific work presented in the main text and, in our view, not relevant for such applications. We are not aware from previous WES manuscripts that we have to disclose the data of all figures.*

*As mentioned in the manuscript, all data from the X-Wakes project will be made available upon request once the project is completed and the reader can contact us.*

*Yours sincerely,*

*The Authors*
