Dear Prof. Aubrun,

indeed, we already addressed the comments of the Reviewer in the revised version of the paper. Main changes were made at lines 513-518 and 532-533 (plus some small additional corrections). We forgot to mention the lines in the rebuttal and to highlight them in the paper (we only used blue-colored text), and I think this may have made them not sufficiently visible. Sorry for this.

Thank you for your management of the review process.

Best regards,
