

Authors' response to the editor's review of "Sensitivity analysis of wake steering optimisation for wind farm power maximisation"

F. Gori, S. Laizet, A. Wynn

August, 2023

The authors would like to thank the editor for the review of the paper. The authors have made the necessary technical corrections by including "The convention for yaw misalignment involves a positive yaw angle signifying an anti-clockwise rotation of the nacelle when viewed from above." at L156-157 of the revised manuscript.
