

Dear Dr. Bianchini,

We want to express our sincere gratitude for your dedicated support and the efforts of the referees in improving our paper. In response to their feedback, we diligently revised our previous responses to the reviewers and made corresponding revisions, addressing all concerns and enhancing their clarity. Additionally, as it appeared that our previous response to Referee #2 was not readily available in the interactive discussion, we have modified and uploaded our responses to Referee #2 and other referees in the interactive discussion section as final author comments. Your guidance and the thorough review process have been invaluable, and we hope that these modifications effectively address the reviewers' suggestions and contribute to the paper's overall improvement.

Sincerely,

Dr. Mostafa Varmazyar
