

Dear Dr. Bianchini,

We wish to extend our sincere appreciation for your dedicated efforts in guiding our paper through the review process, which has significantly enhanced its quality. We are also deeply grateful to your colleagues for their invaluable contributions throughout the submission process, and we appreciate the Handling Chief Editor's generous decision to waive the APC, enabling us to share our research in this esteemed journal. Additionally, we would like to express our gratitude to the referees for their valuable comments, which have enriched our paper. In response to your and the esteemed reviewers' suggestions, we have incorporated the description of the independence of the results from the chosen domain size into Line 225 of the revised manuscript. We hope this modification effectively addresses your and the reviewers' recommendations.

Sincerely,

Dr. Mostafa Varmazyar
