

## **WES-2025-12 - Response to Editor**

The authors thank the Editor and associate Editor for their time and feedback on our manuscript. We provided the versions of the Thies First Class Advanced anemometers using the following added line (in red in the manuscript):

”Anemometer Version 4.3351.00.000 is used at 41.3 m and version 4.3351.10.000 is used at 53 m and 77 m.”
