Responses to Reviewers

Dear Dr. Sandrine Aubrun, Handling Chief Editor, and Dr. Xiaolei Yang, Handling Associate Editor of Wind Energy Science

With these responses to the associate editor, we submit an original research article entitled “Bidirectional wakes over complex terrain using the SCADA data and wake models” by Sasanuma, N., Honda, A., Bak, C., Troldborg, N., Gaunaa, N., M., Nielsen, M., and Shimada, T.

We have thoroughly checked the manuscript for wording and clarity and made the necessary revisions. However, these corrections do not affect the results or the conclusions of this study.

We thank the reviewers for carefully reading our manuscript, and the chief editor and the associate editor for overseeing the review process of our manuscript.

Sincerely,

Nanako Sasanuma
