Comparison of different simulation methods regarding loads, considering the Center of Wind Pressure

Referee's comments (RC) in blue

Autor's response (AC) in black

All minor (grammer) suggenstions where followed. We were just not shure what you ment by the citation formating in line 116. We corrected the name to "Kármán spectrum" and change the citation to the year. If this was not correct, we kindly ask you to have it checked by the style editors.
