We thank the reviewer for their valuable comment. We provide our response to the comment in the table below.

Comment	
"I am satisfied with the revisions and feel the manuscript is ready to be published. I have just one minor additional request: the revised manuscript includes a Charnock formula for the roughness length used in WRF when not coupled with SWAN; however, the formula in the manuscript (which I believe is correct) is actually not from Charnock (1955) but from the revised form found in Fairall et al. (2003). So a reference to Fairall et al. (2003) should be added here. Fairall, C. W., E. F. Bradley, J. E. Hare, A. A. Grachev, and J. B. Edson, 2003: Bulk Parameterization of Air–Sea Fluxes: Updates and Verification for the COARE Algorithm. J. Climate, 16, 571–591, https://doi.org/10.1175/1520-0442(2003)016<0571:BPOASF>2.0.CO;2." Please include this reference in a very minor revision.	Reviewer
Thank you for your comment. The reference to Fairall et al. (2003) has been added, and the manuscript has been updated accordingly, as requested.	Authors
